

Engineered Wood Products

Supplying the engineered wood industry with specially formulated petroleum and bio-based wax emulsions that provide moisture resistance and dimensional stability.

Over 30 years of product innovation, consistent quality, logistical support and hands on customer service.

Walker's line of **Norwax®** products are custom formulated by our team of highly skilled chemists and technical experts to meet customer specifications.

Applications:

- Medium Density Fiberboard (MDF)
- Oriented Strand Board (OSB)
- Parallam
- Particle Board
- Wet Process Fiberboard
- LVL
- Glulam

Engineered Wood Products

Packaging:

- 55 gallon/205 kg drums
- 275 gallon/900 kg tote bins
- Bulk tank trucks
- Rail cars

Features & Benefits:

- Available in a variety of specifications related to flashpoint, volatility and press temperature
- Less contaminants, naturally lighter in color, low odor, and less likely to darken over time
- Imparts dimensional stability through water resistance

Our commitment to R&D, quality control, product development and technical support is maintained by a laboratory at each facility.

We ensure consistent product quality every time, from one gallon to a tanker load, our process is optimized from formulation to production to meet your standards no matter the size of your business.

Strategically located to serve our customers throughout the United States and Canada with three manufacturing facilities located in:

- BURLINGTON, ON ■ PORTLAND, OR
- ORANGEBURG, SC
